Sharing your basket

3.

Once you have added all your products, you can then share your basket with your client. Either from the Share Basket button on the **mini basket** or from the **basket page** itself.

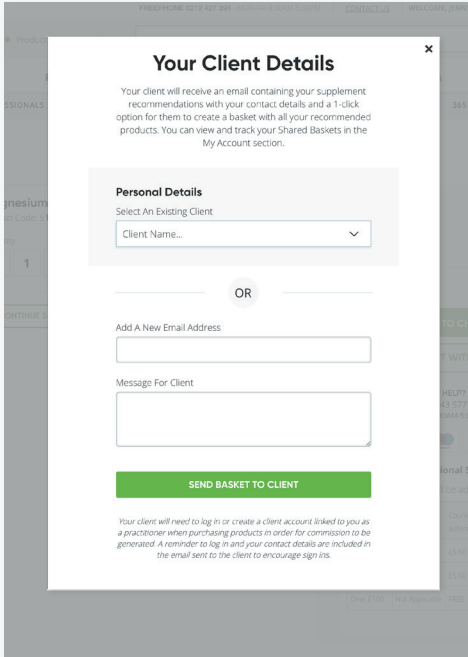

Your Basket

Sharing your basket

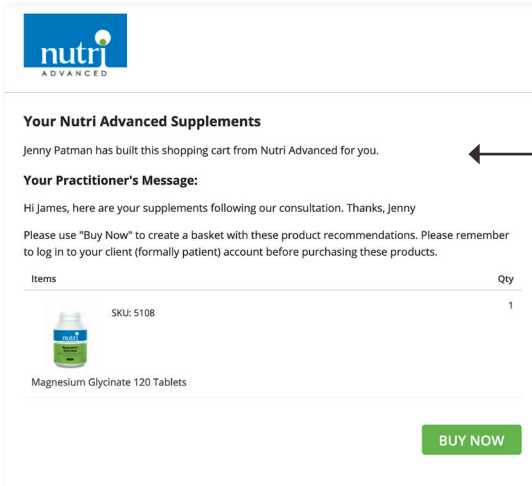

4.

You can now choose which client to share your basket with. You can choose any client that has a **web account** and has **linked to you already** or you can add a **new email address** to send to.

5.

Your client will then receive an email with the contents of the basket and you'll also be emailed a copy. The email will include your practitioner contact details.

Tracking Progress

6.

The client who receives the email will be encouraged to log in to their existing client account or create a new client account before checking out.

You can track the progress of which clients have purchased your recommendations via your **My Account section** of the website under the **Shared Baskets** section. Here you can see if your basket has been purchased by a client or is still available.
